#### FISCAL ANALYSIS

#### **ASSUMPTION**

Officials from the **Department of Insurance**, **Financial Institutions**, and **Professional Registration** assume the proposal will have no fiscal impact on their organization.

Officials from the **Missouri Department of Conservation (MDC)** state the proposed legislation would not appear to have a fiscal impact on MDC funds.

Officials from the **Department of Public Safety - Missouri State Highway Patrol (MHP)** defer to the Missouri Department of Transportation for response regarding the potential fiscal impact of the proposed legislation on their organization.

Officials from the **Missouri Department of Transportation (DOT)** state the DOT/MHP medical plan already has in place performance measures in its contract with its claims administrator regarding time limits for paying claims. On their face, these limits are shorter than the proposed forty-five day time limits in the bill. As a result, the DOT assumes any fiscal impact arising from this proposal would be minor.

Officials from the **Missouri Consolidated Health Care Plan (HCP)** state the HCP may incur additional unknown costs that would be passed directly to the health plans. At this time, there is no way to determine the costs. If the HCP were to incur any costs as a direct result of this proposal, it would charge its vendors a penalty in order to recoup any and all incurred costs. In future years, the vendors would add the cost into the contract and charge HCP more for this service over time.

Based on HCP's response, **Oversight** assumes the penalties charged by HCP against its vendors would equal and offset any additional costs incurred as a result of the forty-five day claims processing time. **Oversight** also assumes that, over time, vendors would strive to process claims within the forty-five day processing window rather than pay penalties

Officials from the **Department of Social Services (DOS) - MO HealthNet Division (MHD)** state this legislation revises Chapter 376 which does not affect the claims paid by the MO HealthNet fee-for-service program. The legislation will apply to the MO HealthNet Managed Care program because it contracts with health maintenance organizations for the purpose of providing health care services through capitated rates. However, there will be no fiscal impact to the MHD.

#### ASSUMPTION (continued)

The legislation will affect the commercial health insurance recoveries received by the third party liability program within the MHD. The proposal extends the amount of time a health carrier has to process a claim, thereby decreasing the amount of interest collected by the third party liability program. The amount of interested collected by the MHD from health carriers has, historically, been very insignificant.

This legislation also imposes a penalty on the health carriers when a claim is paid beyond the forty-fifth processing day. This change will increase the commercial health insurance recoveries received by the third party liability program within the MHD, but the amount is unknown.

There will be no cost to MHD, although there will be a savings because health carriers will pay a penalty to the third party liability program if the claim is paid beyond the forty-fifth processing day. Therefore, the fiscal impact to the MHD is an unknown savings of less than \$100,000 annually.

#### FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

### FISCAL DESCRIPTION

This bill changes the laws regarding the requirements for reimbursing health insurance claims. In its main provisions, the proposal: (1) Requires health insurance carriers, including third-party contractors, to send an electronic acknowledgment of the date of receipt within two working days after an electronically filed health care claim is received; (2) adds a penalty equal to one percent of the total claim amount per day on unpaid claims if a carrier has not reimbursed a claimant within 45 processing days of receiving the claim; (3) increases the amount at which a carrier can combine interest and payments on unpaid claims from \$5 to \$100. Claims that were properly denied prior to the forty-fifth processing day will not be subject to interest or penalties; and (4) repeals the current penalty imposed on carriers that do not take the required action within 40 processing days;

The bill becomes effective January 1, 2011.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
